

Available across a selection of our leading acoustic solutions, our Surface Finishes range offers a collection of modern texture, pattern, and stone looks—hand selected to help you achieve natural, high-end aesthetics without the cost, weight, or rigidity of traditional materials. Surface Finishes are suitable as a decorative finish for acoustic products in retail, hospitality, and commercial interiors. When selecting Surface Finishes, please contact your Autex Acoustics® account manager to discuss applications.

## Applications

Surface Finishes can be added to the below products:

- Cube™ 12 mm/24 mm
- Frontier™ Acoustic Fins/Raft
- Quietspace® Panel 25 mm
- Horizon™

## Product specifications

### Suitable applications

Autex Acoustics recommends specification of Surface Finishes in non-contact areas. For applications where contact is likely to occur, Autex Acoustics recommends our standard Cube™ or Quietspace® Panel range.

### Acoustic performance

Surface Finishes have been tested and found to have no impact on the acoustic performance of Autex Acoustics products. Please contact your Autex Acoustics account manager for further information if required.

### Pinnable

Printed Cube is pinnable. However, please be aware that the surface is not self-healing, and the backing panel colour may be visible when pinning.

### Impact resistance

Surface Finishes may show surface damage when subjected to impacts. We would advise against using Surface Finishes in areas where there is likely to be contact with the product.

### Fire ratings

Testing results for 25 mm Quietspace Panel and 12 mm Cube:

#### ISO 9705: 1993

Classification: Group 1-S  
Smoke production rate:  
<5.0m<sup>2</sup>/s

As required by NZBC C/VM2

#### AS ISO 9705 - 2003

Classification: Group 1  
(SMOGR<sub>Arc</sub>): <100m<sup>2</sup>/s<sup>2</sup>  
Assessed using methodology AS ISO 9705 - 2003 in accordance with AS 5637:2015, as required by NCC Specification 7: Fire Hazard properties: S7C4 FI 4974 FAR 4055

#### BS EN 13501-1:2018

Wall applications  
Classification: B-s1, d0  
(Cube™ 12 mm)

Tested according to BS EN ISO 11925-2:2020 and BS EN 13823:2020 + A1:2022 and classified in accordance with BS EN 13501-1:2018, as required by BS EN 15102:2019. 7191361939-MEC25/03-JV

#### Ceiling applications

Classification: B-s1, d0  
(Cube™ 12 mm)

Tested according to BS EN ISO 11925-2:2020 and BS EN 13823:2020 + A1:2022 and classified in accordance with BS EN 13501-1:2018, as required by BS EN 13964:2014. 7191361939-MEC25/03-JV

#### ASTM E-84-15a

(Cube™ 1/2")  
Class A, FS:0 - SD:45  
RJ4479

#### ASTM E-84-14:

(1" Quietspace Panel)  
Class A FS:0 - SD:10  
RJ3297

### VOC emissions

Surface Finishes has been tested for chemical emissions in accordance with ASTM D5116 and is considered a low VOC and low formaldehyde emissions product.  
VOC emissions: 0.019 mg/m<sup>3</sup>  
Formaldehyde emissions:  
<0.005 mg/m<sup>3</sup>

### Colour fastness to light

Surface Finishes are suitable for indoor use only. Light fastness is dependent on use and exposure. Surface Finishes has been evaluated to the following standard:  
ISO 105-B02:2014  
Rating: 6 (Highest = 7)

### Light Reflectance Value (LRV) solid colours

Surface Finishes can be supplied in several custom color options. When selecting Surface Finishes, a sample can be provided and tested for LRV.

Please contact your Autex Acoustics account manager at the start of your project to arrange a test.

### Fabric care

Avoid contact with the printed surface. Do not clean the surface with any liquid, including water. Consult a specialist cleaning company for cleaning if required.

### Finish

The acoustic product colour may vary from samples and between each product batch. This is due to the inherent nature of the textile. This will not affect the colour of the Surface Finishes.

### Blemishes

Due to the nature of the raw material and the manufacturing process, flecks and other small surface blemishes may be visible on the surface of Autex Acoustics panels from time to time. This is an inherent characteristic of the textile products and is unavoidable.
