

Bradford Fibertex™ 350 & 820 - Unfaced

Refer to product table below for applicable product codes covered by this document

Issue **B, 11/2023**

Product Type & Application

Bradford Fibertex™ is a non-combustible Rockwool bulk insulation product primarily used as a general-purpose insulation in industrial applications where fire and thermal properties are required. It is available without facing material in the following configurations-

- Bradford Fibertex™ 350 is medium density and available as a board.
- Bradford Fibertex™ 820 is high density and available in a strip configuration.

Compliance with the New Zealand Building Code

When correctly specified and installed, this product meets or contributes to compliance with the following performance requirements of the building code:

- **B2 Durability** B2.3.1(a) – Fibertex™ insulation has a well-established history of use in service.
- **C3 Fire affecting areas beyond the fire source** C3.5, C3.7 - Fibertex™ is non-combustible and contributes to preventing fire spread when incorporated in fire rated construction.
- **F2 Hazardous building materials** F2.3.1 - Bradford Fibertex™ do not emit or give rise to harmful concentrations of gas, liquid, radiation or solid particles.
- **H1 Energy Efficiency H1.3.1(a), H1.3.2E** – Fibertex™ have been tested to AS/NZS 4859 to determine insulation R-values for use in accordance with Acceptable Solutions H1/AS1 and H1/AS2 and Verification Methods H1/VM1 and H1/VM2.

Specific Design or Installation Instructions

- Isolate power before installation.
- **Caution:** Electrical cables and equipment partially or completely surrounded with bulk thermal insulation may overheat and fail.
- Suitable for applications that specify non-combustible bulk insulation products - not suitable for exposed wall and ceiling lining applications that require a Group Number.
- Insulation should be installed so that forms a continuous layer and abuts or overlaps adjoining insulation other than at supporting members such as columns, studs, noggings, joists, furring channels and the like where the insulation must butt against the member.
- Suitable for interior applications where the product is protected from UV light, water and wind pressure during and after installation.

For general installation guidance refer to the product information on Bradfordinsulation.com.nz

Supplementary information - Additional installation guidance for this product can be found in AS3999.

Limitations of Use

- **IMPORTANT:** Do Not Modify This Product: Compliance with the evidence of suitability data referenced in this document is only achieved by the product or configuration listed in this PTS.
- This product is not suitable for use as an exposed internal wall or ceiling lining in applications which require a Group Number in accordance with C3.4(a).
- Unfaced Rockwool is not a water or vapour barrier and is not suitable for water or vapour control.

Conditions of Storage & Maintenance

- Store in the original packaging in a cool, dry area, away from foodstuffs. Ensure packages are adequately labelled, protected from physical damage, and sealed when not in use. Avoid packaging being stored under UV light (direct sunlight) for long periods.

Refer to the product SDS at Bradfordinsulation.com.au for more information.

Applicable Product Codes

R-VALUE (m²K/W)	THICKNESS (mm)	NOMINAL LENGTH (m)	NOMINAL WIDTH (mm)	PIECES PER PACK	m² PER PACK	PRODUCT CODE
Fibertex™ 350 PLAIN BOARD						
R0.87	30	1.2	600	10	7.2	114044
R1.40	50	1.2	600	6	4.32	114045
Fibertex™ 820 PLAIN STRIP						
R0.39	13	0.75	225	60	10.1	16356

Material R-values are determined in accordance with AS/NZS 4859.1 at 23°C and apply to the product installed at nominal thickness.

Additional Product Data

Nominal Density		Fibertex® 350 - 60kg/m³ Fibertex® 820 - 110kg/m³
Fire Hazard Properties	When assessed in accordance with AS/NZS 1530.3	• Ignitability: 0 • Spread of flame: 0 • Heat Evolved: 0 • Smoke Developed: 1
Non-Combustibility	When assessed to AS 1530.1	Non - Combustible
