Pattern repeat

Acoustic Timber Ceiling Tiles are made to replicate Timber grains and there is a variation from panel to panel to provide the natural look. There is no pattern repeat from tile to tile.

Fabric care

Avoid contact with the Acoustic Timber Ceiling Tile surface. Where liquids and other contaminants come in contact with the panels, these should be gently removed immediately and not allowed to soak in, dry, or set. Refer to the product Care and Maintenance for cleaning guidance. Consult a specialist cleaning company for cleaning if required.

Back loading

None. All loads to be independently supported or transferred to the grid. For questions and concerns, please contact your account manager.

Blemishes

Due to the nature of the raw material and the manufacturing process, flecks and other small surface blemishes may be visible on the surface of Autex Acoustics panels from time to time. This is an inherent characteristic of the textile products and is unavoidable.
