Attention: Andrew McCreanor
By email: andrew.mccreanor@kingspan.com

Dear Andrew,

The purpose of this letter is to clarify matters set out in the Global GreenTag certificate. It provides additional information on the scope, limitations and exclusions of the certificate issued based on information provided by the applicant and its suppliers. It is not a certificate and is not a substitute for the certificate, nor does it include any product variants apart from those specifically shown below.
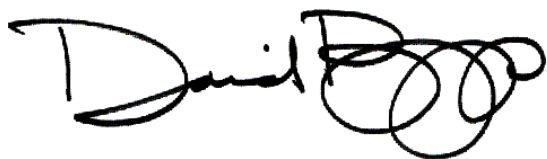

Scope definition	The certificate applies to Architectural Wall Panel, Evolution Panelised Façade, KS1100/1200CS Coldstore Panel and KS1000RW Trapezoidal Roof Panel produced by Kingspan Insulated Panels at their St Marys site.
GreenTag Standard	Global GreenTag International Standard v4.1
Certification level	GreenRate Level A
Licence number	KSP:IP01:2025:GR KSP:IP02:2025:GR KSP:IP03:2025:GR
Limitations and exclusions:	The scope of the certification includes KS1100RL/KS1200RL Roof liner Panel, KS1100KP Karrier Wall Panel, KS1000KC Roof Panel and KS1000KC Wall Panel and KS1000RW Trapezoidal Wall Panel and KS1000RW Trapezoidal Wall Panel.

This section of the letter clarifies the credit verification types for the awarded certificates.

[i] **Recognized Compliant**: The verification given to a Global GreenTag certificate credit statement when the Green Building Rating Tool has formally recognised the Global GreenTag certification services' individual product compliance with the credit, or the Global GreenTag standard, and the certificate meets the minimum individual product credit achievement requirements.

Recognized Evidence: The verification given to a Global GreenTag certificate credit statement when the Green Building Rating Tool has formally recognized the Global GreenTag certification services' individual product compliance with the credit, or the Global GreenTag standard, but the certificate doesn't meet the minimum individual product credit achievement requirements because it requires additional steps of evidence collection and evaluation to determine individual product credit achievement requirements.

Audit Verified Compliant: The verification given to a Global GreenTag certificate credit statement when the certification service conformity requirements outlined in the Global GreenTag International Standard meet the minimum individual product credit achievement requirements of the Green Building Rating Tool, but the Green Building Rating Tool has not yet recognised the certification services' individual product compliance with the credit.
