1600 mm/1800 mm

Modesty
600 mm/1800 mm

Crest
1600 mm

Sol
600 mm

Slate
800 mm

Attach clamps to screen

Align the Vicinity Workstation Clamp with the holes in the Vicinity Workstation Screen and assemble the components as shown.

Note: The plugs may need to be removed from the holes.
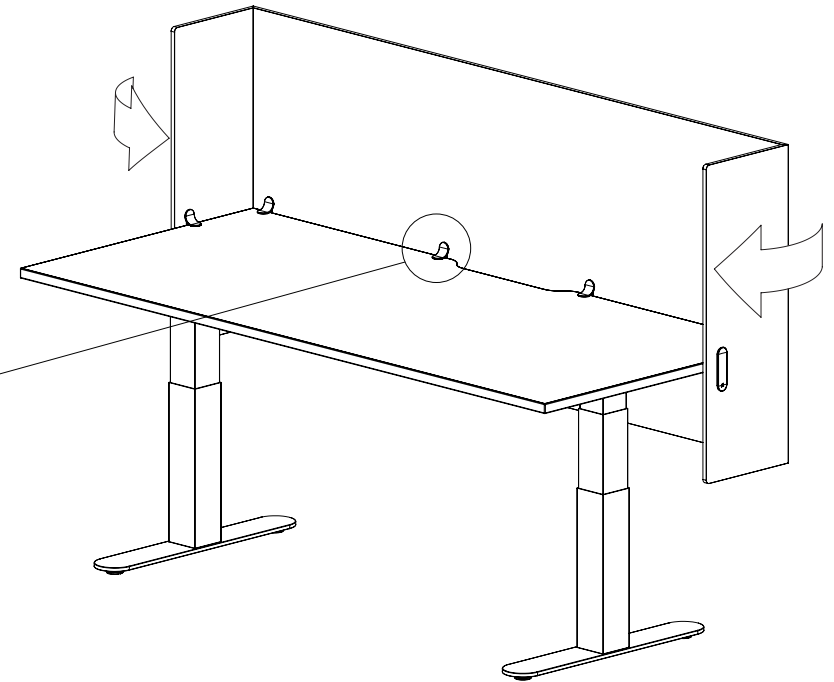

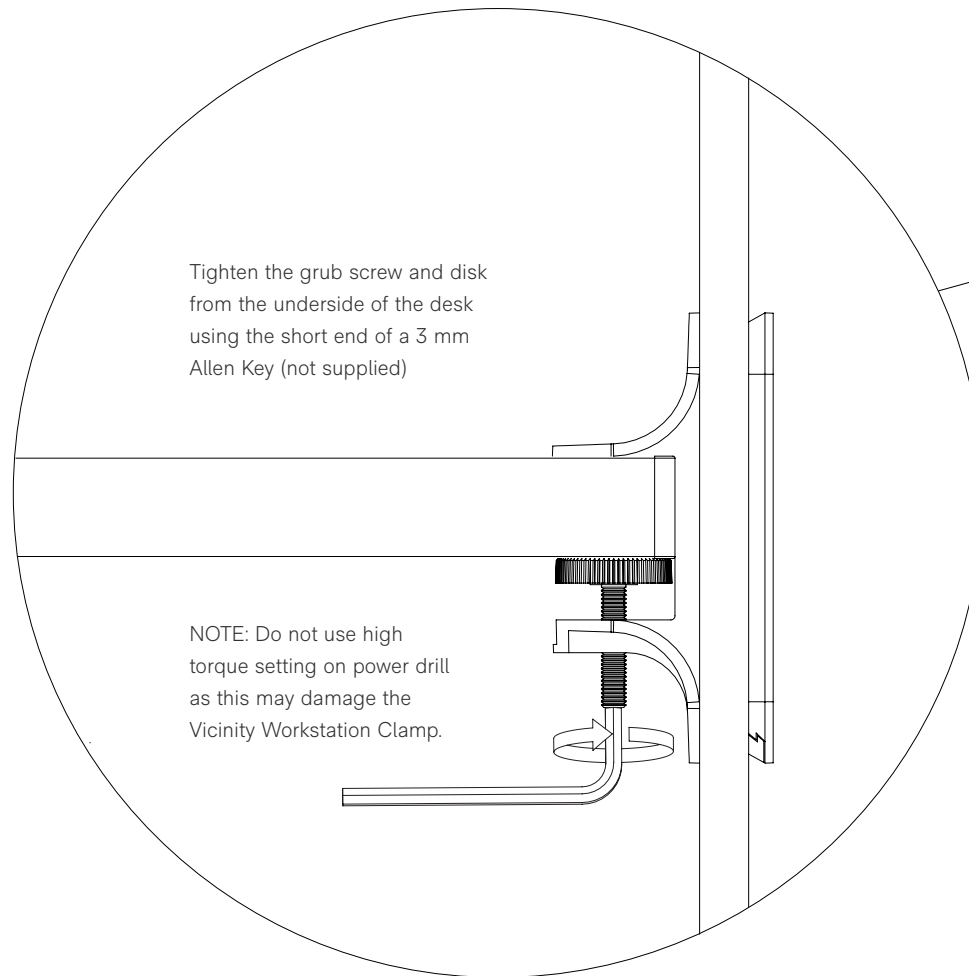

Screen front

Screen back

Tighten the counter-sunk screw in place using the long end of a 4 mm Allen Key (not supplied).

Repeat this step as required for the rest of the Vicinity Workstation Clamps.

Attach screen to desk

Fold the Vicinity Workstation Screen around the corners of the
desk and attach the Vicinity clamps as shown in the detail below.

Tighten the grub screw and disk
from the underside of the desk
using the short end of a 3 mm
Allen Key (not supplied)

NOTE: Do not use high
torque setting on power drill
as this may damage the
Vicinity Workstation Clamp.

Repeat for the remaining Vicinity Workstation Clamps as required.

The Vicinity Workstation Screen is now secured to the desk.
